

ECAO's Recognition of Safety Achievement Award

Symtech is proud to share that we have been honored with the "Recognition of Safety Achievement Award" by the Electrical Contractors Association of Ontario (ECAO). This award is presented annually to member companies that demonstrate an exemplary commitment to occupational health and safety within the electrical contracting industry.

Earning this recognition reflects our consistent efforts to build and maintain a strong Safety-First Culture throughout our operations. The award specifically highlights Team Symtech's Outstanding Safety Performance in 2024:

- Consistently maintained a record of zero lost-time injuries (LTI) and demonstrated a significant reduction in injury frequency rates
- Implemented proactive and innovative health & safety practices
- Provided ongoing safety training and development for employees at all levels
- Maintained an exceptional Occupational Health and Safety Management System
- Demonstrated strong leadership and accountability in safety management and supervision

These achievements would not be possible without the dedication of our Health & Safety team and the daily commitment of our frontline staff, supervisors, and leadership in upholding the highest standards.

We extend our sincere thanks to every team member who has contributed to making our workplace safer and more resilient. This recognition reinforces our position as an industry leader in health & safety and reflects positively on our brand and our commitment to employee well-being.
