

## University of Toronto Scarborough Campus – Sam Ibrahim Building (IC2)

Symtech Innovations Ltd. is proud to announce that we have been chosen as the Electrical contractor for the University of Toronto Scarborough Campus's Instructional Centre 2.

Working alongside our partners – EllisDon and H.H. Angus & Associates Ltd., we will construct a state-of-the-art five-storey teaching space – IC2 for UTSC, which will be situated at the northeast corner of Military Trail and Pan Am Drive, and will feature sustainability targets that will meet energy efficiency performance at a Toronto Green Standards level.

IC2 will comprise 23 technology-enhanced classrooms & lecture halls, 124 faculty & staff offices, and a variety of active-use spaces, including welcome areas, a café, lounges, and informal collaboration spaces. It is anticipated to become a highly visible student hub that centralizes several student service departments in one space, such as UTSC's Office of Student Experience and Wellbeing, Computer Science and Mathematics, the Academic Advising & Career Centre, AccessAbility Services, and Health & Wellness Centre.

Symtech's scope of work will include supplying and installing all electrical systems for the building - power distribution, emergency power, high-efficient lighting, lighting controls, security system (CCTV and Access Control), fire alarm system, and life safety systems. Symtech will also be responsible for supplying and installing all communication systems, as well as architectural lighting design.
