

The Elementary Teachers' Federation of Ontario

Symtech is excited to announce that we have completed the work as Electrical Contractor for the Elementary Teachers' Federation of Ontario (ETFO).

The Elementary Teachers' Federation of Ontario (ETFO) represents over 76,000 teachers and other education professionals in the province of Ontario. The ETFO headquarters was conceived to be a pinnacle of sustainable building practice with goals for a minimum 60% energy reduction over the MNECB (Model National Energy Code for Buildings), and LEED Platinum certification.

Symtech completed all the electrical work in this 120,000 sq. ft. office building, which includes spaces such as training and conference facilities, flexible event space on the ground floor, and support spaces on the upper floors. This brand-new, state-of-the-art building has green roofs, displacement ventilation, rainwater cisterns, geothermal heating, operable windows, triple-glazed glass walls, and skylights to keep its inhabitants comfortable while saving energy.
